

FRUIT Natural G™

Foliar supplement based on brown algae
(ASCOPHYLLUM NODOSUM)

Composition:

Ascophyllum Nodosum Algae 18% w/w

Suitable for use in organic farming

Net Contents: 1 L

Manufacturer: Itaka s.r.l. Via Monte Napoleone 8, 20121-Milano-Italy

Characteristics:

FRUIT Natural G consists of marine algae Ascophyllum nodosum which is rich in macro and microelements, amino acids, vitamins, auxins and natural growth factors. These are readily available and trigger various biochemical processes, including the promotion of a balanced plant growth and enhancing crop quality.

FRUIT Natural G protects plants from climatic stress and improves flowering and fruit set. Regular use of the product helps to increase consistency and accelerate maturation in a variety of fruit crops.

Dose rates and methods of use:

- Fruit: 1-1.5 L/Ha applied in 800-1000 L/Ha water (repeat every 7-8 days)
- Leafy vegetables: 1.5-2 L/Ha applied in 800-1000 L/Ha water (from transplant to harvest every 8-10 days)
- Fruiting vegetables: 1.5 L/Ha applied in 500-800 L/Ha (repeat every 7-8 days)
- Broad field crops: 2-3 L/Ha applied in 250-500 L/Ha water

FRUIT Natural G, mixed with other products may improve their absorption by the plant. Always test compatibility prior to apply on a large area.
