

GIOTTO 5N V™

NITROGEN FERTILIZER

Straight organic nitrogenous fluid fertiliser

Nitrogen (N) Total 5%

Nitrogen (N) Organic 5%

Carbon (C) of organic origin 12%

Giotto 5N V is derived from liquid vinasse sourced from cereals and fruit processing with sugarbeet molasses extracted without ammonium salts.

Characteristics:

Giotto 5N V provides nitrogen, other essential elements and vegetal extracts to reduce the sensitivity of plants to thermal stress, salinity and drought. It increases photosynthetic activity and fruit colour.

Dose rates and methods of use:

Fertigation:

All crops: 10-20 L/Ha applied in 500-800 L/Ha water (Apply 2-3 applications per month from transplanting or early leaf development. Vegetative start.)

Foliar:

All crops: 5-10 L/Ha applied in 400-1000 L/Ha water (apply from early leaf development to harvest)

Warning:

Do not use with other products.

Store at temperatures between 4 ° C and 30 ° C.

Suitable for use in organic farming
