

# MERLINO

Vegetable adjuvant for nutritive solutions

## Composition:

Mimosa extract.....	24% w/v
Willow extract.....	16% w/v
Propolis extract.....	7% w/v

## Characteristics:

Merlino is an entirely vegetal product, extracted from plants belonging to the genus *Acacia* and *Salix*. The formulation is rich in Phyto-complexes such as flavonoids, saponins and trace elements which act as natural adjuvants for the preparation of nutritive solutions for agricultural use.

## Dose rates and Methods of use:

### FOLIAR APPLICATION

- . Fruit crops: 2-3 L/ha applied in 400-500 L/ha water
- . Vegetable crops: 2-3 L/ha applied in 400-500 L/ha water
- . Grapevines: 2-3 L/ha applied in 600-800 L/ha water
- . Ornamentals 350 ml/ha

## Warning:

Do not mix with fungicides.

Do not apply in strong sunlight, when frost is imminent or when the crop is suffering water stress.

Store at temperatures between 5 ° C and 40 ° C, away from direct sunlight and sources of heat.

Suitable for use in organic farming.
